HALIM HAIDARI

STUDENT SOFTWARE DEVELOPER

A multicultural, flexible, and adaptable individual with a strong understanding of people. I excel in both collaborative and independent work environments.

Thriving in diverse environments, I can effectively communicate and deliver highly customer-tailored services and products to people from various backgrounds. For instance, I once identified a specific cultural preference among a client base and adjusted my presentation style to better resonate with their needs, resulting in a significant increase in customer satisfaction.
